If your camera's HW is IPC_5128M, then you may update the firmware of
IPC_5128M.610_19121001.D400.ov4689.4MP.REOLINK.pak
If your camera's HW is IPC_5174MP8M, then you may update the firmware of
IPC_5174MP8M.610_19121001.D400.ov4689.4MP.REOLINK.pak **or**
IPC_5174MP8M.610_19121001.D400.ov4689.4MP.REOLINK.IPC_5174MP8M

You may refer to the following two steps to check the firmware version for the

cameras which are connected to the Reolink PoE NVR.

Step 1. Click the icon to go to the **Menu** page of the NVR, then choose **IP**

channel to

proceed.

Step 2. Select the channel you want to check firmware version for, then tap

on **Detail** and you can see the **FW**

Version.
